

Bearer ring oil VP 785

ELKALUB VP 785 has been specially developed for the lubrication of cylinder bearings in printing presses. The product offers a high protection against corrosion, does not lead to and has varnish dissolving properties. Furthermore, ELKALUB VP 785 can be used as universal EP-concentrate for the lubrication of highly charged machinery elements. In order to make best use of the product's EP-properties, we recommend to apply the ELKALUB VP 785 in the temperature range from approx. +20 °C up to +80 °C.
